

MAXIEM 2030 JetMachining Center

The next generation MAXIEM® 2030 JetMachining® Center sets a new standard for abrasive waterjet machining. Faster, smoother, and more precise, the MAXIEM 2030 is ideal for a wide range of modern machining needs. The exclusive advanced Intelli-TRAX® digital linear encoder provides one-micron resolution instant feedback to the motor control system so the machine knows precisely where the cutting head is at all times. The mobile control station with widescreen display provides flexibility in controller positioning. Optional accessories such as the A-Jet® for 5-axis cutting and taper compensation and Rapid Water Level Control for submerged cutting expand your JetMachining capabilities and dramatically improve production.
